

Re: Coronavirus/Covid 19 Related Concerns

With the continued Coronavirus/Covid 19 concerns, SFK has implemented the following steps and precautions to keep in front of this situation:

- Disinfectant is being used throughout the meal preparation period on the tables and serving utensils are being switched out every 30 minutes
- Every 30 minutes employees are required to wash their hands
- Gloves are to be changed between task changes
- We have reiterated proper hand washing techniques
- We have adopted a more thorough wellness check protocol to include temperature checks and monitoring employees for flu/cold symptoms
- We are requiring a doctor's all clear for employees that are out due to illness
- Drivers are carrying hand sanitizer and using between each delivery
- We have contingent plans and menus in the event we need to operate short handed
